1. CUSTOMER 6. CUSTOMER 5. AVAILABLE SOLUTIONS AS SEGMENT(S) CONSTRAINTS

Customer segmentation can help them better understand their customers and meet their unique needs. This can help them effectively and efficiently. Communicating with segments of customers through preferred channels or platforms. marital status is important for

understanding their customer base.

The current implementation for communication during disaster relief is based on Terrestrial Trunk Radio which uses narrowband techniques, Long Term Evolution (LTE) is expected to be the primary technique for future implementations. If power is lost, use a generator with caution. Make sure conditions are safe before operating a portable generator. Only

Loss of utilities like electricity and water.

Debris cleanup and waste management solutions.

Infrastructure-related problems such as closed roads and communication losses.

operate it outside away from windows, doors or vents.

AI systems can help with seismic data to analyse the magnitude and patterns of disasters and predict the location of disasters and it's applications with the help of rainfall records and flood simulations. It use satellite to predict and monitor the path and intensity of disasters.

9. PROBLEM ROOT CAUSE RC

Different disasters occur due to various causes. Causes for such calamities can be contributed to deforestation, soil erosion, and pollution. The major causes of catastrophic disasters are natural phenomena occurring in the earth's crust as well as on the surface. Natural phenomenon, Tectonic movement

Soil erosion

Air pressure.

Seismic waves.

7. BEHAVIOUR
Customer will stay under a large table
untill a earthquake is gone. They keep
themselves safe from falling or moving

BE

objects during a quake and they make
sure that electricity and gas are off before
evacuation. And stay away from power
lines and electrical wires

I d e n t i f y s t r o n	3. TRIGGERS The unavailability of food items triggered panic buying of the missing items throughout retail stores in impacted and non impacted areas. The degradation of the infrastructure also made it difficult to supply, water, vegetables, and meat to major cities. led to rising food prices of lemon and garlic, which are two basic foodstuff in the Peruvian diet.	IR	10. YOUR SOLUTION I will donate cash to an accredited disaster relief organization, donate food or other items and I will share posts about what's going on to let others know. I will use trending hashtags to contribute to the growing conversation and spread awareness. I use my skills or trade to help rebuild damaged areas.	SL	8.CHANNELS of BEHAVIOUR 8.1 ONLINE Officials use social media during a disaster to alert the public where help is located and when they plan on reaching impacted areas. Any photos or videos uploaded to social media networks aid in documenting the damage of the affected areas and identifying survivors. 8.2 OFFLINE Today's generation we are more updated and having more facilities. During pandemic period or any disaster occurs we can communicate through mobile phone or through	I d e n t i f y s t r o n g T R
